

ROPETM+

Stakeholder Engagement Platform

SOLUTION HIGHLIGHTS

- **STAKEHOLDER ENGAGEMENT**
ROPE+ enriches your legacy systems data and channel it to the right stakeholder at the right time on the right device.
- **WORKFORCE COLLABORATION**
ROPE+ empowers entire workforce to engage and collaborate seamlessly across data and functional silos.
- **EMPOWER TRUE MOBILITY**
ROPE+ technology creates true mobility to empower remote and distributed teams with a 360 view of the company — in real time.
- **AUTOMATE COMPLIANCE REPORTING**
Our integration approach puts regulatory and compliance requirements at its core.

ROPE+ is a **digital transformation** and **enterprise mobility**-enabling platform that helps you efficiently develop compelling mobile and web applications that are integrated with all relevant business applications in your existing environment.

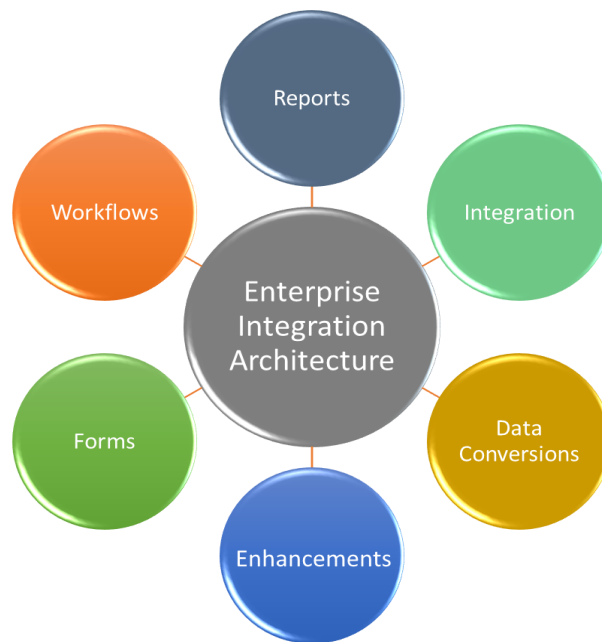

ROPE+ provides you with a **proven architecture** and approach that has been carefully shaped by complex **enterprise digital transformation** initiatives globally.

Specifically, **ROPE+** provides the core services for enterprise integration, including such services for **single sign-on**, **workflow** management and **integration** — allowing you to focus on the design and deployment of integrated mobile services that extend usability and value from your existing legacy systems.

ROPE+ provides 2-way real-time direct connectivity with many cloud and legacy core business systems
